DRY ICE TEMPERATURE MONITOR
SENSITECH

Mercury partners with Sensitech for their TempTale® Ultra Datalogger— a game-changing USB temperature monitor. Validated for the critical Life Sciences market, this sleek device supports up to six temperature alarms. Impress recipients with its intuitive LCD, fast downloads, and automatic PDF generation, all without additional software. Upgrade your monitoring capabilities with TempTale Ultra.

SENSITECH

TempTale.Ultra

Key Factors

- Monitors frozen temperatures of shipment's journey
- Supports up to six temperature alarms
- Fully validated for the Life Sciences market
- Does not require labeling per IATA's Dangerous Goods Regulations
- Temperature Measurement Range -30o C to + 70o C
- Thin 12.5mm housing—easily slips into standard packaging

Mercury specializes in time-sensitive and temperature-controlled logistics services for Life Sciences and Healthcare companies.
